“CenterBeam provides mid-sized businesses with expert protection against outside threats and an assurance of operational integrity. Our customers can focus on their core business while also taking a proactive approach to security.”

Karen Hayward  
Executive Vice President  
CenterBeam

# Big-League IT

CenterBeam brings enterprise-class IT services to the midsize market.

Midsized businesses today are trying to meet complex technology challenges with limited resources. CenterBeam delivers a double play with a robust service portfolio offered in a variable cost model, creating new opportunities for cost savings while delivering enhanced security and performance capabilities.

### Challenges **Midsized businesses search for cost-effective IT solutions**

Outsourcing isn't a decision that businesses make lightly. They look for a trusted service provider who can deliver cost-effective, high-performance, secure infrastructure and support services. CenterBeam solutions help midsized businesses manage and secure their IT infrastructure while minimizing costs. With redundant network operation centers, a 24/7 helpdesk, and support for mobile workers, CenterBeam frees customers to focus on building their business.

### Solutions **CenterBeam's comprehensive service portfolio delivers compelling economics**

With an extensive catalog of enterprise applications tuned for Intel® multi-core systems, CenterBeam delivers robust IT infrastructure to businesses on a variable-cost basis, enabling significant savings over traditional outsourcing or self-provisioning. “CenterBeam customers can take advantage of world-class infrastructure without the costs of buying, building or maintaining it,” says Karen Hayward, executive vice president at CenterBeam. “Intel Multi-core Certification provides customers independent confirmation of high performance and our commitment to innovation.”

### **CenterBeam tightens security with automated application vulnerability scanning**

CenterBeam provides state-of-the-art IT management and the most current security practices through industry-certified professionals and enterprise-class tools. As part of its commitment to continuous improvement, CenterBeam has also added Security Certification from the Intel® Certified Solutions Program. “CenterBeam provides midsized businesses with expert protection against outside threats and an assurance of operational integrity,” says Hayward. “Our customers can focus on their core business while also taking a proactive approach to security.”

The Intel® Certified Solutions Program is a software testing and certification service provided within the Intel® Software Partner Program. Through the program, software vendors can certify that their applications are optimized for key Intel® technologies and meet rigorous security standards.
